THE BIG PIER

In the presence of 25,000 persons and with the finest pyrotechnical display ever seen in that section of the country, the big government pier of the Jamestown Exposition, which cost \$400,000, was formally dedicated Saturday evening. The ceremonies were brief, and following a concert by the Mexican band E. W. Gaylord, representing the Scofield Company, the contractors, turned over the structure to Major F. I. Wheeler, the government officer in charge of the construction. Major Wheeler, then, in a few words, turned the structure over to President Tucker, who accepted it on behalf of the Exposition Company.

With the band playing the "Starspangled Banner," the lights of the Exposition were turned on slowly and with increasing power, until every building and the great pler were outlined in a blaze of light.

The invited guests were then conducted from the center arch, where the dedication ceremonies were held, to seats at the head of the basin, and all

lights on the pier were extinguished.

After a slight delay three smoke bombs began the display of fireworks that lasq-ed for more than an hour. There were rockets of every description, while one of the features were huge set pieces forming in fire the portraits of Capt. John Smith and President Roosevelt.

The plans for the big pier called for a total of about 13,000 piles—sheet piles and round piles—considerably over a mile of sea wall, about 300,000 yards of fill and about 450,000 yards of dredging. To complete the plans over 3,500,000 feet of lumber, for either permanent or temporary use, was required. The pier is a double one, enclosing an enormous water basis of 1,280,000 square feet, but its mostlexceptional feature is a 150 foot reinforced concrete arch at the outer 5 inches from spring line to spring line. In order to place this arch over 200 piles were driven in each abutment and the concrete placed nine feet below the water line in two large cofferdams.

It was in the first game of a double header that was being played by the St. Louis and Detroit teams. About 20,-000 persons were watching the games. An altercation arose about a foul ball, and, while they were arguing, Hugo Dusenberg threw a soda water bottle and struck Evans. The wildest excitement

Evans dropped at once, and lay unonscious on the ground. The spectators, seeing what had happened, made for Duesenberg, shouting, "Lynch him!" Dusenberg, realizing his position, jump-ed onto the field and started to run, and he was chased by several hundred of the spectators, who were seemingly bent on vengeance. There were about fifty po-licemen on the grounds, and they took charge of Dusenberg, and after a while managed to get him safely away from the

Miss Myers' hold on the trapeze bar was broken by the sudden snapping open of the parachute with which she
